

CLEANCO TRUCKMOUNTS

EXTERNAL C.A.D. (Cleanco Auto Drain)

Cleanco's new external C.A.D. is vertically mounted to the recovery tank. By mounting it vertically on the outside of the tank, it is protected from damage, saves space and makes it easily accessible for cleaning and servicing.

The external C.A.D. will produce a 4.5 GPM flow rate under 14" Hg. Operating at a lower RPM extends the impeller life.

To prevent blockages, Cleanco's external C.A.D. has no filters or check valves.

One Year Warranty

External C.A.D..... 237-035

Panel Mount Option..... 237-030

Discharge Hose 5/8" x 75 ft..... 263-175
